APPLICABILITY:

On request to the members taking power under Rate No. 2, commercial service, Rate No. 3, irrigation pumping and dryer service, Rate No. 4, demand energy and Rate No. 8, oil well pumping service at a greater than 50% load factor during June through August.

PROVISIONS FOR SERVICE:

The member pays for the cost of installation of control devices and cooperative provides control devices for loads of 15 kilowatts or greater. For loads less than 15 kilowatts, the member pays for all costs.

ANNUAL REBATE:

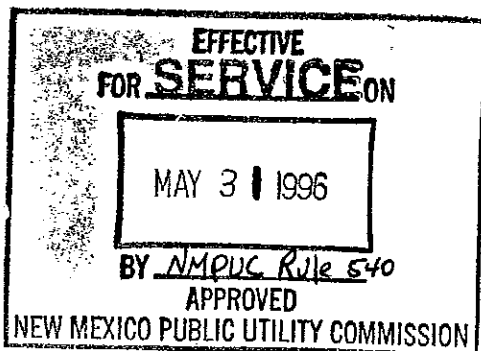

\$11 per KW or \$8.21 per Horse Power (Horse Power = .746 x KW) controlled to be paid in October of each year. The load must be controllable during June through August to be eligible for rebate. The load controlled will be evaluated by the cooperative to establish or confirm the amount of load being controlled.

PERIOD OF INTERRUPTION:

Interruptions are permitted from June through August from 12:00 noon to 10:00 PM. A maximum of 120 hours per year of interruption is possible.

Each interruption will be rounded up to the next full hour for the purposes of determining the number of hours interrupted.

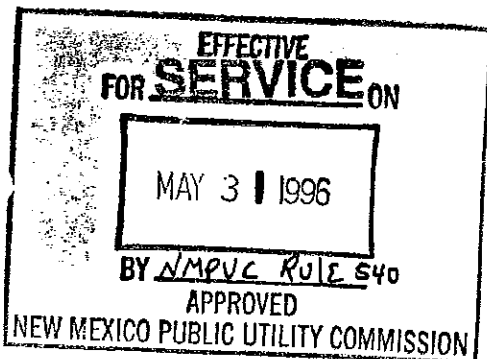

CONTRACT PERIOD:

An initial three year contract is required, with year to year extensions until a three month cancellation notice is received by the cooperative. Emergency cancellation of contracts will be allowed if a member requests that the cooperative remove the control device immediately. The cooperative will remove the control device as soon after an emergency request as possible. If the member requests termination of the contract prior to the end of a contract year on an emergency basis, a \$5 per kilowatt fee will be charged. In addition, no rebate shall be paid if the member gets off of the program prior to the end of the Period of Interruption. Except for the year of 1996 contracts may not start in the calendar months of June, July or August. Requests for service made during this time will become effective following the end of August. In the event that a member wishes to terminate the contract prior to the end of the initial 3 year period but at the end of a contract year, the following charges will apply: End of Year 1-\$300; End of Year 2-\$150.

EMERGENCY INTERRUPTIONS:

The cooperative may interrupt outside of the Period of Interruption or for longer than 120 hours per year in the event of a system emergency. The amount of interruption will be limited to the shortest possible time period required to ensure system reliability.

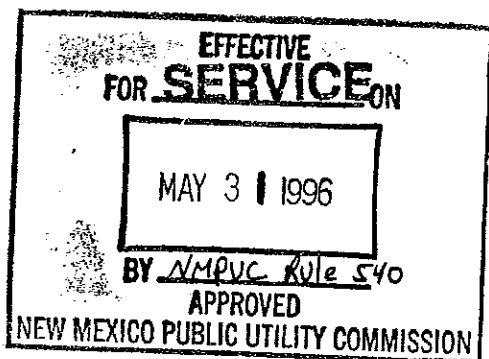

NON-COMPLIANCE PENALTY FOR DELIBERATE TAMPERING WITH OR BYPASS OF CONTROL EQUIPMENT:

For the first occurrence of non-compliance, the member will be charged 100% of the most recent rebate amount. Additionally, a rebate will be given only for two-thirds of the kilowatts taken in the current Period of Interruption if the member comes back into compliance with this rider. In the event no previous rebate has been paid, the penalty will be calculated based on the previous year's rate for a comparable sized member. The second non-compliance penalty will be 150% of the most recent rebate, excluding the effects of previous non-compliance penalties. Additionally, a rebate will be given only for one-third of the kilowatts taken in the current Period of Interruption if the member comes back into compliance with this rider.

A third non-compliance will result in a penalty of 200% of the most recent rebate, excluding the effects of previous non-compliance penalties, removal from the interruptible program and no rebate for the current Period of Interruption.

FUEL AND PURCHASED POWER ADJUSTMENT:

All credits received by the cooperative associated with this program are not to be included in the cost of power. The Fuel and Purchased Power Adjustment will be that of the rate this rider is attached to.
